

AIR SCENTING SYSTEM

The evidence of your commitment with Hygiene and Cleanliness

Why is it important to maintain a good aromatization?

Smell is one of the most influential senses. Bad smells cause rejection and distrust because they are associated with lack of hygiene, dirt and pollution.

PROHYGIENE HAS THE SOLUTION

Our unique devices guarantee the proper scenting of small, medium and large areas, highlighting the hygiene of the premises and projecting a positive image of your business.

A pleasant aroma gives the sensation of a healthy and safe space which can produce calmness and improve moods.

BENEFITS OF OUR SYSTEM

- ✓ *Air scenting improves moods, providing a sense of comfort and security to your customers and employees.*
- ✓ *Distinguishes environments and generates greater consumer willingness to stay.*

FOR ALL TYPE OF BUSINESSES

Our wide variety of fragrances and innovative scenting devices are ideal for all types and sizes of environments

> For medium-size areas

< For small areas
